## PROJECT

### Gas Leakage Detector | 2022- 2023

- It is an IoT-based device designed for detecting LPG gas leaks in both households and factories.
- We have engineered it to be cost-efficient and capable of fast leak detection, achieved through the utilization of Arduino Uno and a set of sensors, featuring synchronized LED and buzzer alerts for swift response to enhance safety.

### Custom Theme Chrome Extension | 2021- 2022

- Custom theme Chrome extension is used to enhance website aesthetics and functionality.
- Implemented dynamic CSS and JS to modify website appearance and provide users with a personalized browsing experience.

### Connect Globe | 2021- 2021

- A fast-paced online hub, connects people worldwide, providing an immediate space to share thoughts, experiences, and worries.
- I work as a full-stack developer, using Java and its services and utilizing MySQL for efficient data management and integration.
